OKLAHOMA EMPLOYMENT SECURITY COMMISSION

FOR IMMEDIATE RELEASE

FORMER HOOVER UNIVERSAL WORKERS DECLARED ELIGIBLE FOR TRADE BENEFITS BY U.S. DEPARTMENT OF LABOR

Special Status Granted to Laid-off Employees Under Trade Act of 1974

OKLAHOMA CITY, OK (April 12, 2007) – Former employees of Hoover Universal, Inc. in Oklahoma City, OK, a subsidiary of Johnson Controls, have been ruled eligible for the Trade Readjustment Assistance (TRA) program by the U.S. Department of Labor (USDOL). TRA provides assistance to those who lose jobs or significant work hours because of increased imports or a shift in production out of the country. TRA-certified workers can access services such as income support, relocation and job search allowances, and health coverage tax credits. Those that need retraining for suitable employment may receive occupational training. The goal is to quickly reconnect laid-off workers with suitable employment.

In a recent ruling, the USDOL found that former Hoover Universal workers meet all requirements to receive TRA according to the Trade Act of 1974 (19 USC 2273). There are three criteria to qualify for TRA. First, workers must be laid off or threatened with layoff. Next, employer sales or production must decrease. Finally, increased imports of products like or directly competitive with the firm's products must contribute to layoffs or the threat of layoffs. Once certified, TRA recipients must enroll in training, although the state can waive this requirement in certain cases.

The USDOL report concludes "all workers of Hoover Universal, Inc., doing business as Johnson Controls, Inc., AG Division, Oklahoma City, Okla., who became totally or partially separated from employment on or after December 13, 2005, through two years from the date of certification, are eligible to apply for adjustment assistance." The first day of eligibility (date of certification) is February 2, 2007. Separated employees who want to apply for TRA should contact their nearest Workforce Oklahoma Center at 1-888-980-WORK (9675).
