# OKLAHOMA EMPLOYMENT REPORT - February 2007

# State unemployment rate unchanged over month

Oklahoma's non-seasonally adjusted unemployment rate held steady over the month and year in February, matching the 4.4 percent reported in both January 2007 and February 2006. Although the state unemployment rate didn't rise, February's lack of movement is somewhat of a disappointment due to the fact that rates have dropped slightly for the January-to-February period since 2002.

# Oklahoma reports growth for month, year in February 2007

- Natural Resources & Mining, the industry that ranks next to last in number of jobs, provided more than 30 percent of the annual growth reported in February 2007. The only industry with fewer jobs is Information.
- ⇒ Trade, Transportation & Utilities was one of only two industries to report job losses for the month. Seasonal Retail Trade losses and smaller losses in Transportation, Warehouse & Utilities accounted for most of the 1,400 jobs dropped over the month in February.
- ➡ Government provided more than half of all monthly growth seen across the state in February. This growth follows a seasonal trend seen each year at this time. State Government was behind much of the expansion.

#### LOCAL AREA UNEMPLOYMENT STATISTICS

The statistics in this section are gathered from the **Local Area Unemployment Statistics (LAUS)** program. LAUS produces labor force, employment, unemployment and unemployment rate estimates for the state and its subdivisions based on where workers live. Data is taken from a monthly household survey, and all LAUS numbers refer to individual persons rather than their jobs.

# Despite gains, state unemployment rate holds steady for month and year in February

The **non-seasonally adjusted unemployment rate** for Oklahoma was unchanged at 4.4 percent in February 2007. For the month, Oklahoma's **non-seasonally adjusted labor force**, **employment** and **unemployment** all reported small increases, but it wasn't enough to affect the state's overall unemployment rate.

Things followed a similar trend for the February-to-February period, as **non-seasonally adjusted labor force**, **employment** and **unemployment** all experienced moderate gains. The result was the same, with the February 2007 unemployment rate matching the February 2006 rate.

#### **CURRENT EMPLOYMENT STATISTICS**

The **Current Employment Statistics (CES)** program uses a monthly payroll survey of businesses to provide current non-farm establishment employment statistics. Non-farm employment is an estimate of employment by place of work. It does not include the self-employed, unpaid family members, or agricultural workers. CES numbers refer to jobs instead of persons.

### Construction unchanged over month in February

Statewide **Construction** held steady over the month in February, as losses in **Specialty Trade Contractors** erased small gains by the other two industry sectors. This is the first time since 2000 that the **Construction** employment level for the January-to-February period has remained unchanged. The industry's 1,000-job annual gain was provided by the **Construction of Buildings** and **Heavy & Civil Engineering** sectors.

### Statewide Manufacturing grows over month and year

Oklahoma **Manufacturing** bounced back from January's loss with an over-the-month gain of 400 jobs (+0.3 percent) in February 2007. For the year, this industry added 1,200 jobs (+0.8 percent) due to the **Durable Goods Manufacturing** sector. Under this sector, gains in **Machinery Manufacturing** overcame losses in **Transportation Equipment Manufacturing** during the February-to-February period.

#### Seasonal trend continues to impact Trade, Transportation & Utilities

**Trade, Transportation & Utilities (TTU)** continued to follow its seasonal trend in February, as it became one of only two statewide industries to shed jobs over the month. This 1,400-job monthly loss was provided mostly by **Retail Trade** and **Transportation, Warehouse & Utilities**. The industry's 3,100-job annual gain was fueled by equal additions in these two sectors.

## OKC Leisure & Hospitality continues over-the-year gains

Oklahoma City **Leisure & Hospitality** mounted a small comeback in February following January's seasonal losses. The industry added 800 jobs (+1.4 percent) over the month, due in large part to the **Food Services & Drinking Places** sector. This sector also provided much of **Leisure & Hospitality's** annual gain.

# Oklahoma City Government adds jobs for month, drops jobs over year

Oklahoma City **Government** rebounded from January losses to post a gain of 1,100 jobs (+1.0 percent) in February 2007. Over-the-month movement was driven by the **State Government** and **Local Government** sectors. February's annual loss was contributed by **State Government**, while the other two sectors expanded for the period. **Government** joins **Manufacturing** as one of only two Oklahoma City industries to lose jobs for the February-to-February time span.
