Done in cooperation with the Oklahoma Employment Security Commission

#### Executive Summary of the Claremore, Oklahoma Area Labor Force Study

In the Claremore area a considerable portion of the adult population are not employed for a variety of reasons. This group includes the retired, disabled, students, homemakers, and the unemployed. This study found that approximately 111,880 members of the adult population are not currently working. Of this group, the majority, 73.8%, indicate that they are not interested in working outside the home.

A significant proportion of the adult population is not currently working but only a small minority can be officially considered unemployed. The United States Department of Labor designates a person as being unemployed if they are without work but have been actively seeking work. Based on this definition 6.0% of the population within the Claremore area are currently unemployed.

This study has identified 47,948 workers who are currently available for *other* work. The categories of Job Shifters and the Underemployed (described below) are included in this estimate. Some workers are job shifters and underemployed, so the total number of workers in both categories is somewhat less than their sum. Additionally, there are those adults who are not working but want to work (Job Seekers), and those workers who are not underemployed and have not looked for work in the past three months (Job Keepers), which can be included in the pool of potential workers. These two groups total another 165,323 potential workers for a grand total of approximately 213,271 adults who are either in the labor force or want to be in it.

Roughly 18% in the labor market area have looked for other work in the past three months. These workers are known as Job Shifters. Of all the methods used to look for other work the majority, 64.8%, were active (such as contacting an employer or filling out applications).

The reasons why the Job Shifters were looking for work were varied but the primary reason for 49.5% of people was in order to get higher pay and/or better benefits.

The data from this study estimates that 13.8% of all adult workers are currently underemployed. To be classified as Underemployed a worker must:

- 1) feel underutilized in their present employment,
- 2) possess training and/or education that is not required by their present job, and
- 3) be willing to change jobs to better utilize their skills.

Job Keepers are those individuals who have not been identified as being underemployed and have not looked for work within the past three months. This group makes up 74.6% of all workers.

Job Seekers include those who are not currently employed but want to work. Eight point one percent of all adults in the Claremore area are represented by this category.

The percentage of workers in the Claremore area with a least a Bachelors degree is almost half of the current work force and about 72% of the workers have had at least some college.

Over half (62.4%) of Claremore area residents had not moved and an additional 18.9% remained in the same county. Nine point five percent had moved from a different county in Oklahoma but only an additional 8.8% had moved from a different state or country.

Of all workers, 84.4% have full-time positions. Of those workers with part time jobs 35.2% would like to have a full-time position with just one employer.

As the wage rate increases, so does the number of people who are willing to work. Although Job Keepers by definition are those workers who are not interested in changing jobs, about 53,000 still find a job of \$14 per hour plus benefits to be either "attractive" or "very attractive". Of the Underemployed, 71.1% indicated that they would be willing to change jobs for an increase in pay of 15% or less. Around 60% of Job Shifters were likely to change jobs for a 15% increase or less and Job Keepers were, not surprisingly, the group least likely to say they would change jobs for a pay increase of 15% or less with only 25%. However, even though this figure is a smaller proportion than for the other two groups, it still represents a sizable group of workers. Only 25% of Job Keepers claimed to not be interested in changing jobs at all.

Workers who did not currently have a package of benefits were also asked what pay raise would be necessary for them to change jobs if benefits were included with that job. The Underemployed were most likely to be willing to change jobs under such circumstances but about twenty-five percent of Job Keepers were also willing to change with a 15% pay increase and a benefits package.

Almost 16% living in the Claremore area already commute at least 21 miles to work and an additional 20% commute 11-20 miles. About half of all workers indicate a willingness to commute distances of 21 miles or more to their job and only 17% said that they would not commute more than 10 miles to work. An Analysis of the Claremore Labor Force Study Data Conducted Among Residents Living in the Claremore, Oklahoma Area

Survey Conducted by the University of Oklahoma Public Opinion Learning Laboratory

Report prepared by

Dr. Mary Outwater, Director OU POLL

June 21, 2005

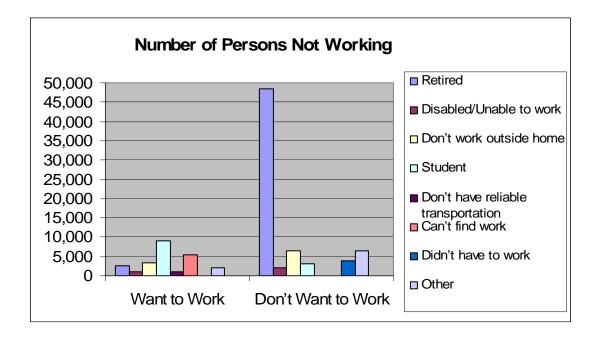

#### **Introduction**

This report is a labor force study of the Claremore labor force which examines the availability of labor in the Claremore, Oklahoma area.

Approximately 188,797 of the 300,677 adults who live in the Claremore area are employed, which is equal to 62.8% of the population who is 18 years of age or older.

In the Claremore area a considerable portion of the adult population are not employed for a variety of reasons. This group includes the retired, disabled, students, homemakers, and the unemployed. This study found that approximately 111,880 members of the adult population are not currently working. Of this group, the majority, 73.8%, indicate that they are not interested in working outside the home (see Table 1 below).

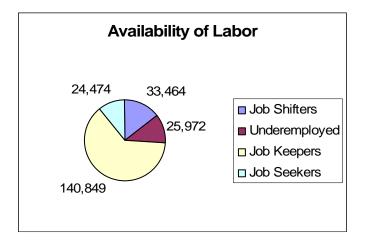

| Table 1: Number of Persons Not Working |              |                    |              |  |
|--|--------------|--------------------|--------------|--|
| Reason for Not Working                 | Want to Work | Don't Want to Work | <u>Total</u> |  |
| Retired                                | 2,497        | 48,448             | 50,945       |  |
| Disabled/Unable to work                | 999          | 1,997              | 2,996        |  |
| Don't work outside home                | 3,496        | 6,493              | 9,989        |  |
| Student                                | 8,990        | 2,997              | 11,987       |  |
| Don't have reliable transportation     | 999          | 0                  | 999          |  |
| Can't find work                        | 5,494        | 0                  | 5,494        |  |
| Didn't have to work                    | 0            | 3,996              | 3,996        |  |
| Other                                  | 1,998        | 6,493              | 8,491        |  |
| Refused                                | 499          | 0                  | 499          |  |
| Total                                  | 23,172       | 70,424             | 95,396       |  |

A significant proportion of the adult population is not currently working but only a small minority can be officially considered unemployed. The United States Department of Labor designates a person as being unemployed if they are without work but have been actively seeking work. Based on this definition 6.0% of the population within the Claremore area are currently unemployed.

#### Availability of Labor

This study has identified 47,948 workers who are currently available for *other* work. The categories of Job Shifters and the Underemployed (described below) are included in this estimate. Some workers are job shifters and underemployed, so the total number of workers in both categories is somewhat less than their sum. Additionally, there are those adults who are not working but want to work (Job Seekers), and those workers who are not underemployed and have not looked for work in the past three months (Job Keepers), which can be included in the pool of potential workers. These two groups total another 165,323 potential workers for a grand total of approximately 213,271 adults who are either in the labor force or want to be in it.

## Job Shifters

Roughly 18% (or 33,464 workers) in the labor market area have looked for other work in the past three months. Of all the methods used to look for other work the majority, 64.8%, were active (such as contacting an employer or filling out applications) and only a minority, 34.5%, were passive (such as looking at ads or browsing the internet).

The reasons why the Job Shifters were looking for work were varied but the primary reason for 49.5% of people was in order to get higher pay and/or better benefits. Another 5.8% was looking for another job to support their family better and 5% wanted a change in career.

## Underemployed

The data from this study estimates that 13.8%, or 25,972, of all adult workers are currently underemployed. To be classified as Underemployed a worker must:

- 4) feel underutilized in their present employment,
- 5) possess training and/or education that is not required by their present job, **and**
- 6) be willing to change jobs to better utilize their skills.

#### Job Keepers

Job Keepers are those individuals who have not been identified as being underemployed and have not looked for work within the past three months. This group makes up 74.6% of all workers or 140,849 people.

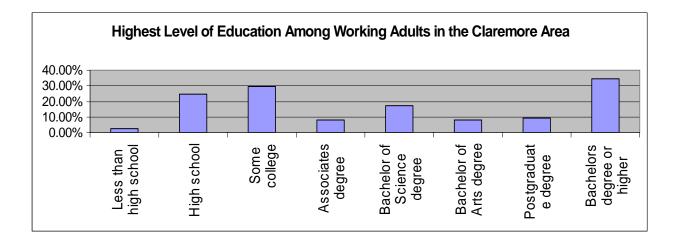

## Job Seekers

This last category of potential workers contains those who are not currently employed but want to work. Eight point one percent of all adults in the Claremore area are represented by this category which is equivalent to 24,474 people.

#### **Education**

The percentage of workers in the Claremore area with a least a Bachelors degree is almost half of the current work force (Table 2) and about 72% of the workers have had at least some college.

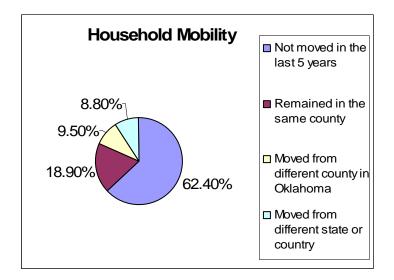

| Table 2: Highest Level of Education Among Working |                              |  |  |  |
|---|------------------------------|--|--|--|
| Adults in the O                                   | Adults in the Claremore Area |  |  |  |
| Level of Education                                | Percent Adult Workers        |  |  |  |
| Less than high school                             | 2.6%                         |  |  |  |
| High school                                       | 24.5%                        |  |  |  |
| Some college                                      | 29.6%                        |  |  |  |
| Associates degree                                 | 8.2%                         |  |  |  |
| Bachelor of Science degree                        | 17.2%                        |  |  |  |
| Bachelor of Arts degree                           | 8.2%                         |  |  |  |
| Postgraduate degree                               | 9.0%                         |  |  |  |
|   |                              |  |  |  |
| Bachelors degree or higher                        | 34.4%                        |  |  |  |

#### **Household Mobility**

To understand how much the Claremore area population shifts in a five year period, respondents were asked if they have lived at the same residence for the last five years. Over half (62.4%) had not moved and an additional 18.9% remained in the same county. Nine point five percent had moved from a different county in Oklahoma but only an additional 8.8% had moved from a different state or country.

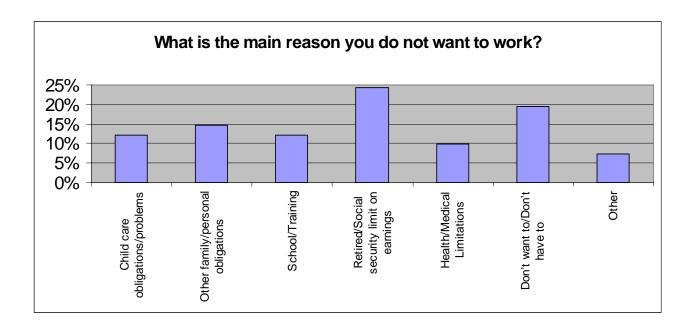

Of the Job Shifters, 32.8% did not live in the same county five year ago whereas only 26.9% of the Underemployed had not lived in the same county and 22% of Job Keepers.

## **Type of Employment**

Of all workers, 84.4% (or about 159,329 people) have full-time positions, and another 15.1% (or about 28,469 people) have part-time jobs. Of those workers with part time jobs 35.2% would like to have a full-time position with just one employer. Part-time workers listed several reasons for why they wanted to work part-time instead of full-time and these are described below in Table 3.

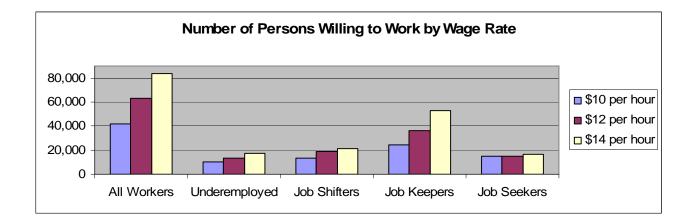

| Table 3: Frequency DistributionWhat is the main reason you do not want to work full-time? |           |         |  |  |
|---|-----------|---------|--|--|
|   | Frequency | Percent |  |  |
| Child care obligations/problems   | 5         | 12.2    |  |  |
| Other family/personal obligations   | 6         | 14.6    |  |  |
| School/Training   | 5         | 12.2    |  |  |
| Retired/Social security limit on earnings   | 10        | 24.4    |  |  |
| Health/Medical Limitations  | 4         | 9.8     |  |  |
| Don't want to/Don't have to   | 8         | 19.5    |  |  |
| Other   | 3         | 7.3     |  |  |
| Total   | 41        | 100.0   |  |  |

# <u>Characteristics of Workers</u> Wage Rates

As the wage rate increases, so does the number of people who are willing to work. Table 4 describes how many people in each of the available worker categories are willing to take a position at various pay levels that includes a standard package of benefits. Although Job Keepers by definition are those workers who are not interested in changing jobs, about 53,000 still find a job of \$14 per hour plus benefits to be either "attractive" or "very attractive".

| Table 4: Number of Persons Willing to Work by Wage Rate |             |               |              |             |             |
|---|-------------|---------------|--------------|-------------|-------------|
|   | All Workers | Underemployed | Job Shifters | Job Keepers | Job Seekers |
| \$10 per hour   | 41,913      | 10,493        | 13,687       | 24,085      | 14,978      |
| \$12 per hour   | 63,064      | 13,759        | 18,809       | 36,579      | 14,978      |
| \$14 per hour   | 83,936      | 17,020        | 21,593       | 53,262      | 16,877      |

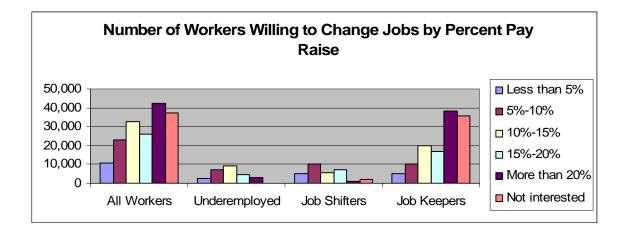

#### Willingness to Change Jobs

As shown in Table 5, of the Underemployed, 18,465 workers (71.1%) indicated that they would be willing to change jobs for an increase in pay of 15% or less. Around 20,815 (62.2%) of Job Shifters were likely to change jobs for a 15% increase or less and Job

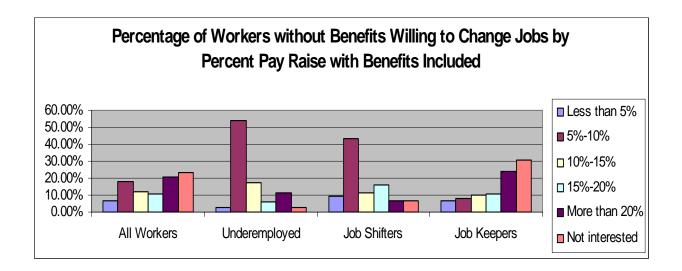

Keepers were, not surprisingly, the group least likely to say they would change jobs for a pay increase of 15% or less with only 25.1% (or 35,354 workers). However, even though this figure is a smaller proportion than for the other two groups, it still represents a sizable group of workers. It is also interesting to note that only 25.2% of Job Keepers claimed to not be interested in changing jobs at all.

| Table 5: Number of Workers Willing to Change Jobs by Percent Pay Raise |             |                      |              |             |  |
|--|-------------|----------------------|--------------|-------------|--|
| Desired raise in pay   | All Workers | <u>Underemployed</u> | Job Shifters | Job Keepers |  |
| Less than 5%   | 10,573      | 2,493                | 5,087        | 4,930       |  |
| 5%-10%   | 23,033      | 6,986                | 10,140       | 10,423      |  |
| 10%-15%  | 32,473      | 8,986                | 5,588        | 20,001      |  |
| 15%-20%  | 26,054      | 4,493                | 7,094        | 17,043      |  |
| More than 20%  | 42,102      | 2,987                | 1,004        | 38,029      |  |
| Not interested   | 37,004      | 0                    | 2,041        | 35,494      |  |

Workers who did not currently have a package of benefits were also asked what pay raise would be necessary for them to change jobs if benefits were included with that job. The Underemployed were most likely to be willing to change jobs under such circumstances but about twenty-five percent of Job Keepers were also willing to change with a 15% pay increase and a benefits package.

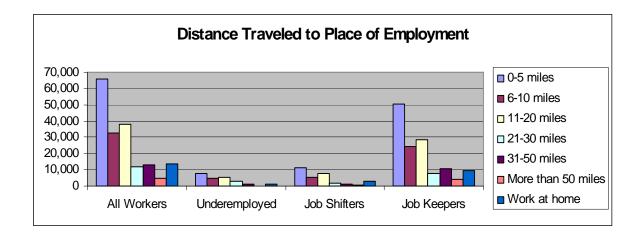

| Table 6: Percentage of Workers without Benefits Willing to Change Jobs by |  |                      |              |             |  |
|---|--|----------------------|--------------|-------------|--|
|   | Percent Pay Raise with Benefits Included |                      |              |             |  |
| Desired raise in pay  | All Workers                              | <u>Underemployed</u> | Job Shifters | Job Keepers |  |
| Less than 5%  | 6.4%                                     | 2.9%                 | 9.1%         | 6.9%        |  |
| 5%-10%  | 18.2%                                    | 54.3%                | 43.2%        | 8.3%        |  |
| 10%-15%   | 11.8%                                    | 17.1%                | 11.4%        | 9.7%        |  |
| 15%-20%   | 10.8%                                    | 5.7%                 | 15.9%        | 10.4%       |  |
| More than 20%   | 20.7%                                    | 11.4%                | 6.8%         | 24.3%       |  |
| Not interested  | 23.6%                                    | 2.9%                 | 6.8%         | 30.6%       |  |

## **Commuting Patterns**

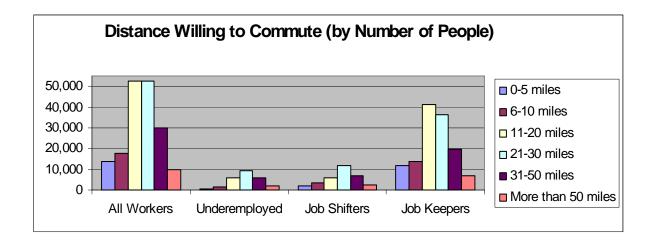

Almost 26,641 workers (or 15.7%) living in the Claremore area already commute at least 21 miles to work and an additional 20.2% commute 11-20 miles as shown in Table 7 below.

| Table 7: Distance Traveled to Place of Employment |             |                      |              |             |
|---|-------------|----------------------|--------------|-------------|
| Distance Traveled                                 | All Workers | <u>Underemployed</u> | Job Shifters | Job Keepers |
| 0-5 miles   | 66,079      | 7,844                | 11,478       | 50,283      |
| 6-10 miles  | 32,473      | 4,909                | 5,588        | 24,367      |
| 11-20 miles                                       | 38,137      | 5,402                | 7,998        | 28,311      |
| 21-30 miles                                       | 12,083      | 2,935                | 2,008        | 7,465       |
| 31-50 miles                                       | 13,027      | 1,480                | 1,004        | 10,423      |
| More than 50 miles                                | 4,531       | 0                    | 502          | 3,944       |
| Work at home                                      | 13,593      | 1,480                | 3,012        | 9,437       |

About half of all workers (51.8%) indicate a willingness to commute distances of 21 miles or more to their job and only 16.7% said that they would not commute more than 10 miles to work.

| Table 8: Distance Willing to Commute (by Number of People) |             |                      |              |             |
|--|-------------|----------------------|--------------|-------------|
| <u>Distance</u>  | All Workers | <u>Underemployed</u> | Job Shifters | Job Keepers |
| 0-5 miles  | 13,971      | 493                  | 1,974        | 11,972      |
| 6-10 miles   | 17,558      | 1,480                | 3,447        | 13,944      |
| 11-20 miles  | 52,486      | 5,870                | 5,890        | 41,410      |
| 21-30 miles  | 52,486      | 9,298                | 11,813       | 36,480      |
| 31-50 miles  | 30,019      | 5,870                | 6,894        | 19,437      |

## **Conclusions**

- 47,948 residents of the Claremore area are either Underemployed or Job Shifters or both and are readily available to change jobs.
- 18,040 people are currently unemployed and *actively* seeking work.
- Among working adults about a third (34.4%) have completed at least a Bachelor's degree and an additional 37.8% have had some college or an Associate's degree.
- A total of 63,064 current workers expressed a willingness to work for at least \$12 per hour and another 20,872 current workers would work for at least \$14 per hour.
- A total of 66,079 current workers are currently willing to change jobs for a pay raise of 15% or less.
- 92,511 current workers are willing to commute 21 miles or more to work.

Methodology and Data Report for the Claremore, Oklahoma Area Labor Force Study Conducted Among Residents Living in the Claremore Area

Data Collected May 19 – June 11, 2005

## Survey Conducted by the University of Oklahoma Public Opinion Learning Laboratory

Report prepared by

Dr. Mary Outwater, Director OU POLL

June 21, 2005

#### METHODOLOGICAL REPORT

#### Purpose

This field report presents the methodological details for a telephone survey of residents of living in the Claremore, Oklahoma area conducted in May and June of 2005 by the University of Oklahoma's Public Opinion Learning Laboratory (OU POLL) for the Oklahoma Department of Commerce. The purpose of the survey was to gauge the employment potential of the local population in terms of skills, education, desire, and ability to work.

#### **Support Materials and Questionnaire**

Interviewers were provided with scripted introductions (Appendix A) designed to help them gain the cooperation of respondents and fallback statements (Appendix B) to help them answer questions that respondents were likely to ask.

The questionnaire in its entirety can be found in Appendix C of this report.

#### **Interviewer Training**

For this project, each interviewer underwent a project briefing before making any calls. The questionnaire in its entirety was reviewed and all aspects of the survey were discussed during this training session. Interviewers then reviewed the questionnaire multiple times individually before making any calls.

#### Interviewing

The interviewer training and fieldwork was conducted between May 19, 2005 and June 11, 2005. Tuesdays and Thursdays interviewing generally started at 5:00 p.m. and ended at 9:00 p.m. On Mondays and Wednesdays shifts lasted from 2:00 p.m. and went until 9:00 p.m. Friday shifts went from 3:00 p.m. until 7:00 p.m. Saturday shifts lasted from 10:00 a.m. to 5:00 p.m. and Sunday shifts went from 2:00 p.m. until 6:00 p.m.

#### **Incentives and Bonus Pay**

In order to maximize the productivity of OU POLL's professional interviewing staff and the quality of the data gathered throughout the project, OU POLL provided incentives to the interviewers who worked on this project.

#### A. Incentives per completion

The POLL's ongoing incentive program provides supplemental pay to interviewers based on the number of completed interviews they obtain. For this project, every one interview completed yielded an equivalent of \$0.50 added to their regular paycheck.

#### **B.** Incentives per refusal conversion

Because convincing respondents who have already refused, known as refusal conversions, to complete the survey is usually more difficult than normal completions, the POLL awarded the equivalent of \$1 for each refusal conversion completion.

#### Sampling

The study used a random telephone sample of residents living within Delaware, Craig, Mayes, Nowata, Rogers, and Wagoner counties, and select zip codes within Tulsa County. A list of eligible zip codes and counties was provided to the OU POLL by the Department of Commerce and these zip codes were used to select the sample. This sample was purchased from Survey Sampling, Inc. and was screened of many non-residential numbers (such as businesses and non-working telephone numbers) by Survey Sampling, Inc. in order to reduce the amount of time spent on this task by the interviewers.

#### Callbacks

In processing the sample for this study, 15 dialing attempts were allowed to reach eligible households to complete interviews. If a respondent wished to be called back at a specific time, interviewers entered an appointment time into the computer and, at the specified time, the callback would automatically be sent to an interviewer to be called.

#### **Disposition of the Sampling Pool**

596 complete interviews were obtained among residents of the selected counties along with an additional 13 partially completed interviews. Partially completed interviews are those that were cut off before the end of the interview, for various reasons, but we were still able to obtain responses to a portion of the substantive questions. For the population of interest, the 596 interviews represent a margin of error of  $\pm 4.0\%$  at a 95% confidence level. If the partially completed interviews are included in this tally, the margin of error decreases to  $\pm 4.0\%$  at a 95% confidence level. (The 95% confidence level means that if the survey were to be conducted 100 times with 100 different random samples, the actual results obtained would fall within the limits of error at least 95 times).

The Oklahoma Department of Commerce had commissioned the OU POLL to conduct a survey of the Bartlesville area as part of the labor force studies around the same time that this study was being conducted. Because these two areas partially overlapped, some of the data gathered from the Bartlesville study was used as part of this study. The figures through Table 1 represent just the data taken from the Claremore project.

Overall, 3,500 numbers were released (dialed) from the sampling pool, and 12,926 call attempts were made by POLL interviewers to complete interviews.

Table 1 presents the final disposition codes of each telephone number dialed.

#### **Response Rate**

The rate presented below is designed to conform to the American Association of Public Opinion Research's (AAPOR) Standard Definitions: Final Dispositions of Case Codes and Outcome Rates for Surveys (2004 edition).

AAPOR Response Rate 4: Using the 1,084 known eligible households as the comparison, the 472 fully and partially completed interviews from the Claremore project represent a **43.5% response rate**.

#### **Refusal Conversions**

Refusal conversion efforts began on May 26, 2005, and were managed systematically by the interviewing software and the interviewer supervisors. "Hard" refusals, or those numbers in which a member of the household asked us not to call back were not attempted, and at least five days had to elapse between the initial refusal and the beginning of our conversion efforts.

Conversion efforts led to 106 successful refusal conversions, representing 22.5% of the total completed interviews.

#### **Final Outcomes of Sampling Data**

Table 1 represents the final dispositions of the sampling frames.

#### Statistical Weighting of the Data

The data was weighted by age group and gender in order to represent the area as accurately as possible.

|                                   | -                                | Frequency | Percent |

#### APPENDIX A Introduction Selection Sequence

#### Informed Consent Script:

Introduction: Hello this is \_\_\_\_\_\_\_(Interviewer) calling from the University of Oklahoma Public Opinion Learning Laboratory in Norman. We are conducting a study of labor force characteristics in your area. The study is sponsored by local economic development officials and the Oklahoma Department of Commerce. The study will help local officials in their business and workforce development efforts.

Your phone number was selected at random and we don't know either your name or address. The questions I need to ask will take about 8-10 minutes and all of your responses will be kept confidential. You may stop participating at any time and may decline to answer any question you do not feel comfortable answering. There are no risks or benefits to participation.

At the completion of the interview I will give you telephone numbers in case you have questions concerning the study or questions concerning your rights as a participant in the study.

#### [If yes, then:]

Thank you. And, just to confirm that I am speaking with an adult, are you 18 years of age or older?

#### [If no, then:]

We thank you for volunteering to participate. We are obligated to speak to someone who is at least 18 years old. Is there someone who is at least 18 years old available to come to the phone right now?

#### [If yes, then:]

We are required to tell you that participation is voluntary, your individual responses will be kept entirely confidential and you are free to refuse to answer any question or withdraw at any time. There are no foreseeable risks or benefits associated with this study beyond those present in routine, everyday, life.

#### Concluding remarks:

Thank you very much for participating in this survey, which was funded by the Communications Department at the University of Oklahoma. Would you like to have phone numbers to call regarding the conduct or content of the survey?

#### [If yes, then:]

If you have any questions about the content, please feel free to contact OU POLL at (405) 325-7655. If you have questions about your rights as a research participant, you may call the University of Oklahoma Norman campus Institutional Review Board at (405)325-8110.

### APPENDIX B Fallback Statements

These statements are to be used to answer questions from respondents and to aid you in gaining respondent cooperation.

#### How did you get my number?

(For RDD studies) Your number was randomly generated by a computer. We supplied the area code and a computer randomly created the rest of the numbers. We do not have your name or address, and you are not part of any list and your answers will be entirely confidential.

#### I don't want to buy anything!

We are not selling anything, and we won't try to contact you at a later date to sell you anything either. We are conducting a scientific study and we would really appreciate it if you could help us out.

#### Where are you calling from?

I am calling from the University of Oklahoma's Public Opinion Learning Laboratory on campus. This is where we conduct scientific studies on the behalf of professors here at the university as well as other organizations.

#### I don't have time right now.

If now is not a good time, I would be happy to call you back another time. How about \_\_\_\_\_\_ (suggest a time)?

#### I don't want to share my opinions.

You were selected to represent thousands of people in \_\_\_\_\_\_ (geographic area). Your opinions are very important to us so that we can get an accurate picture of what people think. Your answers will be kept completely confidential.

#### I don't do anything over the phone.

If you are concerned about the legitimacy of this operation you can speak with my supervisor or I can have the director of the OU POLL contact you. Let me remind you that we are not trying to sell you anything and your answers will be kept strictly confidential.

#### I'm not interested.

This is a really important study that will be used to \_\_\_\_\_\_ (fill in with specifics of study). We really need everyone who has been selected to participate so that our results will be accurate.

#### *Take me off your list!*

(For RDD studies) We are not calling from any list. Your number was randomly generated by a computer. We do not have your name or address, and you are not part of any list, and your answers will be kept entirely confidential.
