INTRODUCTION

The 2005 Oklahoma Wage Report represents wage data collected as a result of a wage survey conducted in 2001, 2002, 2003, and 2004. To assist users in economic decisions, wage rates and definitions of specific occupations are reported for the state, metropolitan statistical areas (MSAs), labor market areas (LMAs) and workforce investment areas (WIAs).

This publication is intended to be one resource of information. It is suggested that readers consult other wage resources when researching wage information. These sources could include other wage surveys and job announcements.

While the focus of this publication is occupational wage rates, it is important to note that these rates can vary greatly by industry, firm size within an industry, and region within the state. Although reported in various ways, these wages do not necessarily reflect experience or educational requirements.

When identifying wages for a particular occupation, be sure both the Standard Occupational Code (SOC) and the title refer to the occupation for which the reader is seeking wages. Some occupational titles can be misleading. For example, two SOC titles that sound similar may have completely different job descriptions.

Note that the wage data in this publication were collected in 2001, 2002, 2003, and 2004. When determining wage rates for individual occupations, it is important to assess current labor market conditions, such as labor shortages, that would also affect wage levels.

Methodology

The wage data presented in the 2005 Wage Report were collected through a biannual survey that measured wage rates by industry. In Oklahoma, the survey samples over 5,000 establishments per year in all industries, taking years to fully collect the sample of 15,000 establishments. This data is from the 2001, 2002, 2003 and 2004 surveys. Wage rates for over 600 occupations are reported.

Employers report the number of employees in an occupation by wage ranges. They may report wages based on hourly or annual rates. If they report an annual rate, employers provide a wage rate equivalent to full-time regardless of whether or not their employees work full-time. Wages represented are hourly and annual rates.

Wages for this survey are straight-time gross pay exclusive of premium pay and non-wage fringe benefits. Some inclusions are the base pay rate, commissions, and production bonuses. Some exclusions are overtime pay, tips, housing allowances and non-production bonuses. The survey collects hourly wage data in 12 wage intervals.

Interval	Hourly Wages	Annual Wages
Range A	Under \$6.75	Under \$14,040
Range B	\$6.75 to \$8.49	\$14,040 to \$17,679
Range C	\$8.50 to \$10.74	\$17,680 to \$22,359
Range D	\$10.75 to \$13.49	\$22,360 to \$28,079
Range E	\$13.50 to \$16.99	\$28,080 to \$35,359
Range F	\$17.00 to \$21.49	\$35,360 to \$44,719
Range G	\$21.50 to \$27.24	\$44,720 to \$56,679
Range H	\$27.25 to \$34.49	\$56,680 to \$71,759
Range I	\$34.50 to \$43.74	\$71,760 to \$90,999
Range J	\$43.75 to \$55.49	\$91,000 to \$115,439
Range K	\$55.50 to \$69.99	\$115,440 to \$145,599
Range L	\$70.00 and over	\$145,600 and over

Confidentiality of our sources (employers who responded) is a primary concern; therefore, restrictions are in place to prevent the release of data which could reveal the identity of an employer or an employer's pay scale.

The Wage Interval Data reflects the percentage distribution of responses across the wage intervals.

Prevailing Wages

Due to the methods used to retrieve and calculate this data, the wages reported in this survey cannot be used as prevailing wages under the Davis-Bacon Act, the Service Contract Act (SCA) or the Alien Labor Certification (ALC) Program.

The Davis-Bacon Act requires construction contractors on publicly-funded contracts of more than \$2,000 to pay the local prevailing wage. If the contract is federally funded, those prevailing wages may be obtained from the US Department of Labor Wage and Hour Division office in Tulsa at (918) 496-6791. If the contract is state funded, contractors should contact the Prevailing Wage Unit of the Oklahoma Department of Labor in Oklahoma City at (405) 528-1500 ext. 214.

The Service Contract Act applies to every contract entered into by the United States or the District of Columbia in which the principal purpose is to furnish services in the United States through the use of service employees. Service contracts through government contract work which exceed \$2,500 are subject to the Service Contract Act. To obtain prevailing wages and information regarding SCA, visit the following web site: <http://edc.dws.state.ut.us>.

Alien Labor Certification (ALC) programs are generally designed to assure that the admission of aliens to work in this country on a permanent or temporary basis will not adversely affect the job opportunities, wages, and working conditions of U.S. workers. For information regarding the ALC program, contact the Oklahoma Employment Security Commission at (405) 557-7126.

Definitions

Mean Hourly Wage: The average value of a distribution – the weighted sum of all wages for a given occupation.

Mean Annual Wage: The average hourly wage multiplied by a year-round, full-time figure of 2,080 hours per year (52 weeks by 40 hours).

Median Hourly Wage: The midpoint of all wages – half of all wages are less than or equal to and half of all wages are greater than or equal to the median wage.

Median Range (25th and 75th Percentile): One quarter of the employees in the occupation earn more than the high end of this range, while one quarter earn less than the low end of the range. These wages represent the middle fifty percent of an occupation. In statistics, the low-end number marks the first quartile; the high-end marks the third quartile.

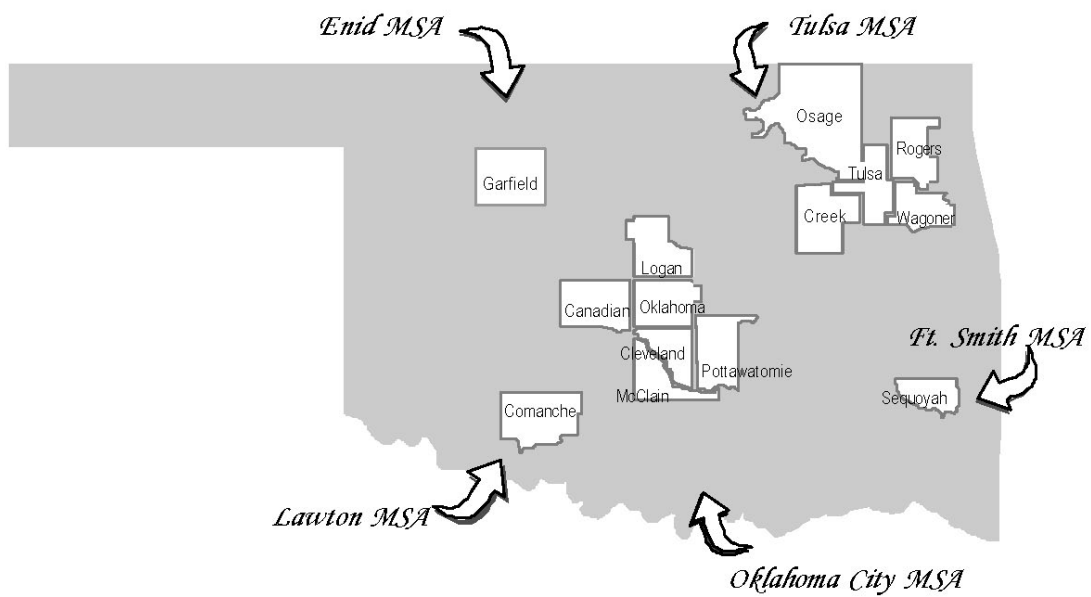

Occupational Title: These titles are based on the Standard Occupational Code (SOC) classification system.

SOC Code: The Standard Occupational Code (SOC) used for classifying occupations.

Notes

Annual wage estimates are not available for actors, dancers, musicians, and singers because there is wide variation in the number of hours worked by those employed in these occupations. These are noted in the data tables with an N/A. An N/A is also used if the estimates were not released under the category.
